# Amandine Revol
## UX Designer

UX designer with 8 years of experience. I have worked, both in start-ups as the sole UX designer, managing the entire design process, and in larger organisations where teamwork and adaptability are crucial.

## Work Experience

**UX Designer,** JobCloud
June 2023 - present, Zurich Switzerland

- Led the design system initiative between UX and development, creating a comprehensive system in one year. Boosted efficiency, consistency, and accessibility across the platform.
- Redesign company profiles to provide job seekers with crucial insights, enhancing engagement and encouraging more job applications.
- Develop and optimise pages for Google Search Generative Experience (SGE) in collaboration with SEO teams, creating personalise and contextually relevant search outcomes.
- Enhance salary visibility on the platform, making accurate salary insights more accessible to job seekers.
- Conduct user testing with visually impaired individuals and developed strategies to enhance platform accessibility.

**UX Designer,** Levuro
January 2021 - May 2023, Zurich Switzerland

- Drive the entire design process from defining the problem to research to final design involving the different stakeholders along the way.
- Creation of the Beta User program for continuous product improvement across multiple platforms.
- Work closely with development teams to ensure that design. specifications are implemented accurately.
- Create and maintain Levuro design system to keep web and mobile app designs consistent
- Define and analyse key metrics and use them to inform product direction.
